Training: Netskope

Netskope Security Cloud Implementation and Integration (NSCI&I)

TRANING TERMS

2025-06-30 | 3 days | Virtual Classroom
2025-09-03 | 3 days | Kraków / Virtual Classroom
2025-10-01 | 3 days | Warszawa / Virtual Classroom

TRAINING GOALS:

The Netskope Security Cloud Implementation and Integration (NSCI&I) course is an in-depth training on the Netskope Security Cloud Platform led by a Netskope expert. This three-day course covers SAML, Netskope Private Access (NPA), Advanced DLP, Web Security, Netskope Advanced Analytics, Netskope REST API, Security Posture Management, Netskope Remote Browser Isolation (RBI), and Netskope Cloud Exchange. The course will provide examples and hands-on practice on how to implement and integrate the Netskope platform into an enterprise environment.

Objectives

Upon completion of this course, attendees will be able to:

- Perform SAML configuration and troubleshoot SAML
- Configure NPA to deploy a publisher and steer private apps
- Create an Exact Match DLP policy
- Create a custom DLP policy with Regex
- Create a fingerprint DLP policy
- Configure Email DLP for outbound SMTP mail
- Identify and control encrypted web traffic
- Identify and use key capabilities of Netskope Advanced Analytics
- Automate malware hash lists and URL lists
- Configure a custom Security Posture rule
- Configure a SaaS app for security posture management
- Configure Netskope RBI and interpret RBI logs
- Configure the components of Netskope Cloud Exchange
