

Szkolenie: IBM  
IBM InfoSphere Information Governance Catalog: Building the Catalog

W celu przeprowadzenia kalkulacji ceny tego szkolenia prosimy o kontakt z działem handlowym

## Cel szkolenia:

In this course students learn how the Information Governance Catalog is used to govern information assets through the development of a governance catalog of categories and terms. This catalog documents information assets and governance policies and rules that implement the high-level strategy and objectives of a governance program.

Please refer to course overview

This is a basic course for those who will be using the Information Governance Catalog to develop and implement their information governance strategy.

## Plan szkolenia:

### 1. Introduction to the Information Governance Catalog

- Describe information governance
- Describe how the Information Governance Catalog supports information governance
- Describe the IBM Information Server environment that Information Governance Catalog is a part of
- Describe the governance role of the Information Governance Catalog within Information Server

### 2. Building a Business Glossary

- Describe categories and terms
- Describe the category hierarchy
- Describe the kind of information in categories and terms
- Describe how to create categories and terms

### 3. Governance Policies and Rules

- Describe policies and rules
- Describe the rules hierarchy
- Describe the kind of information in policies and rules
- Describe how to create policies and rules

### 4. Catalog Workflow

- Describe Information Governance Catalog security roles
- Describe Catalog workflow
- Create a new category and mark it for review

- Review a category
- Edit the category based on the reviewer's feedback
- Approve a category
- Publish the Catalog
- IBM InfoSphere Stewardship Center

#### 5. Catalog Management

- Restrict access to Catalog content
- Create labels
- Manage stewards
- Create custom attributes
- Import and export a business glossary

#### 6. IBM Glossary Anywhere

- Configure IBM Glossary Anywhere
- Search for governance assets using IBM Glossary Anywhere
- Use text capture to search for governance assets

#### 7. Information Governance Dashboard (optional)

- Explore the Information Governance Dashboard
- Drilling down in the Cognos charts

### Wymagania:

Those taking this course should have basic knowledge of the Windows operating system. Familiarity with Information Server products is desirable but not required

### Poziom trudności
