

Szkolenie: PECB®  
ISO/IEC 27002 Manager

## Cel szkolenia:

ISO/IEC 27002 Manager training course provides information on the implementation and management of information security controls based on ISO/IEC 27002.

### Course Objectives

By successfully completing this training course, you will be able to:

- Explain the fundamental concepts of information security, cybersecurity, and privacy based on ISO/IEC 27002
- Discuss the relationship between ISO/IEC 27001, ISO/IEC 27002, and other standards and regulatory frameworks
- Support an organization in effectively determining, implementing, and managing information security controls based on ISO/IEC 27002

### Why Should You Attend?

ISO/IEC 27002 Manager enables participants to acquire the necessary knowledge and skills to support an organization in selecting, implementing, and managing information security controls based on ISO/IEC 27002. The training course provides information that will help participants in gaining a thorough understanding of how information security risks can be treated by selecting relevant controls, especially in the context of an information security management system (ISMS).

A PECB ISO/IEC 27002 Manager certification will enable you to demonstrate your comprehensive knowledge in the implementation and management of information security controls based on industry best practices.

### Who Should Attend?

This training course is intended for:

- Managers involved in the implementation of an information security management system (ISMS) based on ISO/IEC 27001
- IT professionals and consultants seeking to enhance their knowledge in information security
- Members of an ISMS implementation or information security team
- Individuals responsible for information security in an organization

## Plan szkolenia:

- Introduction to ISO/IEC 27002
- Information assets, people controls, physical controls, and operational security controls
- Information security incident management and monitoring of information security controls and certification exam

## Wymagania:

The main requirements for participating in this training course are having a fundamental understanding of ISO/IEC 27002 and comprehensive knowledge of information security.

## Poziom trudności

## Certyfikaty:

The participants will obtain certificates signed by PECB (course completion).

The “PECB Certified ISO/IEC 27002 Manager” exam meets all the requirements of the PECB Examination and Certification Program (ECP). It covers the following competency domains:

- Domain 1: Fundamental principles and concepts of information security, cybersecurity, and privacy
- Domain 2: Information security controls based on ISO/IEC 27002

For specific information about exam type, languages available, and other details, please visit the [List of PECB Exams](#) and the [Examination Rules and Policies](#).

After successfully passing the exam, you can apply for one of the credentials:

- PECB Certified ISO/IEC 27002 Provisional Manager
- PECB Certified ISO/IEC 27002 Manager

You will receive the certificate once you comply with all the requirements related to the selected credential. For more information about ISO/IEC 27002 certifications and the PECB Certification process, please refer to [Certification Rules and Policies](#).
