

Szkolenie: Microsoft
MB-240T00 Microsoft Dynamics 365 Field Service

DOSTĘPNE TERMINY

2025-05-21 | 3 dni | Warszawa / Wirtualna sala

Cel szkolenia:

Dynamics 365 Field Service helps organizations better position themselves in the market by providing a variety of tools that assist in identifying and scheduling resources and managing workloads for mobile workers. This course will equip students with the skills necessary to identify and configure the key components that are used to deliver Field Service and mobile solutions. Key topics include identifying the organizational considerations that will drive configuration decisions and common configuration aspects. This course helps students better understand the bigger picture and end goals focused around implementations that aid in designing more efficient solutions that align with customer and organizational goals.

Course objectives:

- Identify the key components involved in Field Service Implementations.
- Define the products and services that will be delivered to customers.
- Determine which pricing options to use in specific scenarios.
- Determine which resources are required.

Audience:

This course is designed for IT professionals with experience or interest in delivering Field Service solutions for large-scale customers.

Plan szkolenia:

- Configure Field Service
 - Introduction to configuring Field Service
 - Defining products and services
 - Defining tax codes
- Resource Scheduling Configuration
