

Szkolenie: Micro Focus Operations Bridge and OMi Interactive Training created by ART

Cel szkolenia:

This course is intended to provide students who are new to the Operations Bridge Suite an introduction to the Suite and its components. It also provides an overview of how the Suite enables them to be highly effective members of the operations team. The Operations Bridge Suite is very broad, sophisticated, and feature rich. The course is designed to focus on features the students are likely to encounter on a regular basis.

Upon successful completion of this course, you should be able to:

- Introduce the Operations Bridge Suite and its components (BVD, OBR, Ops Bridge Analytics, NNMi, EUM, and OO)
- Identify the data sources for the Operations Bridge Suite
- Describe the APM solution and its components
- Describe the core features and capabilities of OMi and its role in event management
- Use OMi to effectively identify, prioritize, and resolve events
- Use OMi performance graphs and OMi tools

This course is designed for:

- Users who are new to the Operations Bridge Suite
- Users of the Operations Bridge Suite, who serve the role of an operator
- Anyone interested in a technical introduction to the Operations Bridge Suite

Plan szkolenia:

- Introduction
 - Describe the core features and capabilities of HPE OMi and its role in event management
 - Describe OMi's role as a consolidated console and operations bridge
 - Use OMi to effectively identify, prioritize, and resolve incidents
- Operations Bridge Suite Overview
 - Describe the IT Operations Management Suites
 - Define the key concepts and features of the Operations Bridge Suite
- Operator Workflow

- Describe the OMi operator workflow
- Navigate the OMi interface*
- Use the event browser
- Take action on an event
- Prioritize an event*
- Analyze event details*
- Remediate or escalate an event*
- OMi Performance Dashboards
 - Access performance dashboards*
 - Use display control features
 - Use multiple methods to select time ranges
 - View event overlay data with performance data
 - Export performance dashboard data
 - Create a performance dashboard favorite*
- OMi Tools
 - Describe OMi tools
 - Summarize the purpose and use of sample tools
- Health Perspective
 - Describe the features and usage of Health Perspective
 - Navigate Health Perspective
 - View specific reports and displays to assess an event
- Operations Bridge Components
 - Describe the components of the Operations Bridge Suite
- Operations Bridge Data Sources
 - Identify the data sources for the Operations Bridge Suite
 - Describe the APM solution and its components
 - Discuss the SiteScope (SiS) and Operations Manager (OM), Storage Operations Manager (SOM), and Network Node Manager i (NNMi) components
- Accessing Data within Operations Bridge
 - Access data using BVD*
 - Explain the data integration in BVD
 - Access operational reports using OBR*

* Indicates a simulation.

Poziom trudności

Certyfikaty:

The participants will obtain certificates signed by Micro Focus (course completion).
