

Szkolenie: Micro Focus SMA200B- SMA2 Essentials for Service Desk Agents - Bundled with Digital Learning

Cel szkolenia:

This course covers how a Service Desk agent uses the Service Management Automation X (SMA2) Agent interface to support the IT needs of a business. SMA2 is a new suite designed to simplify the way businesses manage their IT services and assets. It uses the Information Technology Infrastructure Library (ITIL)-compliant IT processes with embedded machine learning and contextual analytics.

This course is applicable for SMA2 2018.02, 2018.05, 2018.08, 2018.11, and 2019.02 versions. However, the hands-on lab exercises in this course use SMA2 2018.05. This bundle course involves below ILT and DL courses:

- SMA200B – SMA2 Essentials for Service Desk Agents
- SMA200SP – Service Management Automation X: Service Desk (Digital Learning)

Upon successful completion of this course, you should be able to:

- Describe the basic architecture of SMA2
- Create and classify a service request
- Approve a request
- Complete tasks, mark a request as fulfilled, and monitor targets
- Filter lists, manage views, and access a support request for classification
- Answer a chat request and start a discussion to solve an issue
- Escalate a request to an incident
- Solve a request
- Create a knowledge article from a request
- Create reports
- Manage dashboards

Audience/Job Roles

This course is intended for IT Service Desk staff

Plan szkolenia:

- Course Overview

- Introduce the course overview, agenda, and logistics
- List the available SMAX courses
