Cel szkolenia:

In this Introduction to Microsoft Project 2016: Getting Started class, students will spend time getting comfortable with the Project 2016 user interface, including project views and the ribbon. They will also learn to enter, organize, and link tasks, work with resources, create basic reports, and create projects independently. The course allows time to practice fundamental basic skills essential for efficient use of this program.

After completing the course, students will be able to:

- Create and manage simple projects.
- Enter and manage tasks.
- Work with a project calendar.
- Add and manage project resources and work with the resource sheet.
- Create basic reports for your project.

Audience profile:

This course is intended for students new to Microsoft Project.

Plan szkolenia:

- Components of a Project
 - Project Components
