

Szkolenie: Microsoft  
MS-55217 SharePoint 2016 Power User

## Cel szkolenia:

This course delivers the complete site owner story from start to finish in an engaging and practical way to ensure you have the confidence to plan and create new sites or manage your existing sites. Your goal is to learn how to make SharePoint relevant to your team by using a sites functionality to help you share information and collaborate with your colleagues. During the class you will also learn best practices and 'what not to do' as you watch live, interactive demonstrations and put theory into practise with hands on exercises.

After completing the course, students will be able to:

- Understand and describe the functionality of SharePoint 2016
- Create and Delete Sites
- Create and Managing Web Pages including content such as pictures and videos

## Audience profile:

This course is intended for anyone who wants to become the ultimate site owner; whether you are building sites for yourself or helping other people to create and maintain their sites.
