

Szkolenie: Oracle BI Publisher for PeopleSoft PeopleTools

Cel szkolenia:

This BI Publisher for PeopleSoft training is a template-based reporting solution that separates the data extraction process from the report layout and allows you to reuse extracted application data into multiple report layouts. It is designed for developers and power users who create and maintain custom reports.

This PeopleSoft Fluid User Interface training introduces you to certain advanced features and design techniques for the PeopleSoft Fluid User Interface.

Updated for PeopleTools 8.57; Suitable for students using PeopleTools 8.54 or later.

Learn To:

- Identify data sources.
- Create templates.
- Use common templates.
- Use rich text.
- Use XSL Mapper.
- Define BI Publisher reports.
- Run BI Publisher reports.

Benefits to You:

Become more effective at managing the reporting tasks of your organization through optimal implementation of report generation, templates and scheduling. Reduce report maintenance by adjusting report templates without involvement of IT resources.
