

## Szkolenie: Oracle Introduction to PS for Campus Solutions

### Cel szkolenia:

This one-day course is the prerequisite course for all PeopleSoft Campus Solutions application classes, although versions of this course for other product lines are acceptable substitutes. In this course, participants learn central concepts of PeopleSoft applications. These concepts include practical skills such as navigation and personalization, and conceptual background information such as the use of control tables to enforce business rules. The course content and structure are similar to the Introduction for PeopleSoft courses for other product lines, but with an emphasis on how the common concepts are expressed in the Campus Solutions system.

### Learn To:

- Navigate through the PeopleSoft Enterprise system
- Understand relational database tables
- Use Process Scheduler to run processes and reports
- To use Campus Solutions service indicators
- Use online PeopleBooks
- Understand effective date functionality

### Objectives:

- Describe the Campus Solutions business processes and applications
- Navigate through the PeopleSoft Enterprise system
- Manipulate data in pages
- Manage data in relational database tables
- Run processes and reports
- Use Campus Solutions service indicators
- Describe Campus Solutions academic structure
