Cel szkolenia:

The Palo Alto Networks Firewall: Troubleshooting course is three days of instructor-led training that will help you:

- Investigate networking issues using firewall tools including the CLI
- Follow proven troubleshooting methodologies specific to individual features
- Analyze advanced logs to resolve various real-life scenarios
- Solve advanced, scenario-based challenges

Objectives

Successful completion of this three-day, instructor-led course will enhance the participant’s understanding of how to troubleshoot the full line of Palo Alto Networks Next-Generation Firewalls. Participants will perform hands-on troubleshooting related to the configuration and operation of the Palo Alto Networks firewall. Completion of this class will help participants develop an in-depth knowledge of how to troubleshoot visibility and control over applications, users, and content.
