Szkolenie: HPE

Introduction to Managing HPE Synergy with OneView

Cel szkolenia:

This session equips participants with core capabilities that help them perform basic management of HPE Synergy. An architectural overview ensures a high-level understanding of the associated equipment, including the HPE Synergy frame, network fabric, compute and storage modules. Participants use HPE Synergy Composer powered by HPE OneView to perform basic management of the existing HPE Synergy environment. During the labs portion of the training, students learn how to make changes to the existing environment and manage server profiles.

Course objectives:

The main objective of this course is to introduce HPE Synergy hardware components, management tools, connectivity, and storage options. During the course, students will use HPE OneView to modify an existing HPE Synergy configuration and perform basic management of the HPE Synergy components.

Audience:

- System administrators
- Engineers
- Technicians
- Anyone who would like basic knowledge of the HPE Synergy solution and its building blocks

Plan szkolenia:

- Composable Infrastructure Introduction
- HPE Synergy Frame and Management Modules Overview
- HPE Synergy Gen10 Compute Modules
- Connectivity Options
- Storage Integration Options
- HPE Synergy Hardware Setup
- HPE Synergy Software Setup
