

Szkolenie: The Linux Foundation
CHFD Certified Hyperledger Fabric Developer

Cel szkolenia:

New exam coming soon in Q1 2020

The Certified Hyperledger Fabric Developer (CHFD) should demonstrate the knowledge to develop and maintain client applications and smart contracts using the latest Fabric programming model.

Overview

Hyperledger is an open source collaborative effort created to advance cross-industry blockchain technologies. It is a global collaboration, hosted by The Linux Foundation, including leaders in finance, banking, Internet of Things, supply chains, manufacturing and Technology.

Hyperledger offers a certification program that allows candidates to demonstrate their competence to develop and maintain client applications and smart contracts through the command line.

Exam Delivery: Online

Duration of Exam: TBD

Certification Valid: 2 Years

Version of software: TBD

Includes:

- 12 Month Exam Eligibility
- Free Exam Retake
- PDF Certificate

Domains & Competencies

A Certified Hyperledger Fabric Developer (CHFD) should demonstrate the knowledge to develop and maintain client applications and smart contracts using the latest Fabric programming model.

Such a developer must also be able to package and deploy Fabric applications and smart contracts, perform end-to-end Fabric application life-cycle and smart contract management and program in Java or Node.js (or Go for smart contracts).

The Certified Hyperledger Fabric Developer certification will cover the following areas:

- Identity Management - 7%
- Network Configuration - 8%
- Smart Contract Development - 40%
- Smart Contract Invocation - 25%
- Maintenance and Testing - 20%

Exam details

This exam is an online, proctored, performance-based test that consists of a set of performance-based items (problems) to be solved in a command line.
