### Cel szkolenia:

This five-day intensive course enables participants to develop the necessary expertise to support an organization in implementing and managing an IT Service Management System as specified in ISO/IEC 20000-1:2005. Also, the participant will gain a thorough understanding of best practices for planning and implementing IT Service Management processes starting from the six fields of ISO 20000, planning and implementing new and changed services, service delivery process, relationship management processes, problem resolution process, control processes and release processes. This training is consistent with the project management practices established in ISO 10006 (Quality Management Systems - Guidelines for Quality Management in Projects). This training is fully compatible with ISO 20000-2 (Guidelines for the Implementation of an ITSMS) and ITIL.

**Who should attend?**

- Project managers or consultants wanting to prepare and to support an organization in the implementation of an Information Technology Service Management System (ITSMS)
- ISO 20000 auditors who wish to fully understand the Information Technology Service Management System implementation process
- Persons responsible for the Information Technology Service or conformity in an organization
- Members of an Information Technology Service team
- Expert advisors in information technology
- Technical experts wanting to prepare for an Information Technology Service function or for an ITSMS project management function

**Learning objectives**

To Understand the implementation of an IT Service Management System in accordance with ISO 20000
To Gain a comprehensive understanding of the concepts, approaches, standards, methods and techniques allowing an effective management of an IT Service Management System
To Understand the relationship between the information technology service management system, including the management processes and compliance with the requirements of different stakeholders of the organization
To Acquire expertise to support an organization in implementing, managing and maintaining an Information Technology Service Management System (ITSMS) as specified in ISO/IEC 20000:2005
To Acquire the necessary expertise to manage a team in implementing the ISO 20000 standard
To Acquire the personal skills and knowledge necessary to advise an organization on the management best practices of an Information Technology Service Management System (ITSMS)
To Improve the analysis and decision making capabilities in an IT management context

Plan szkolenia:

- Day 1: Introduction to Information Technology Service Management System (ITSMS) concepts as required by ISO 20000: Initiating an ITSMS
  - Introduction to management systems and the process approach
  - Presentation of the standards ISO 20000 family of standards and comparison with ITIL V2 and V3
  - Fundamental principles of Information Technology Service
  - Preliminary analysis and establishment of the maturity level of an existing Information Technology Service management system based upon ISO 21827
  - Writing a business case and a project plan for the implementation of an ITSMS
- Day 2: Planning an ITSMS based on ISO 20000
  - Definition of the scope of an ITSMS
  - Definition of an ITSMS policy and objectives
  - Documentation of the processes and procedures
  - Service level management
  - Budgeting and accounting for IT services
  - Competence management
- Day 3: Implementing an ITSMS based on ISO 20000
  - Change management
  - Configuration and release management
  - Capacity and availability management
  - Service continuity and security management
Incident and problem management
Operations management of an ITSMS

Day 4: Controlling, monitoring and measuring and improving an ITSMS; certification audit of an ITSMS
  Controlling and Monitoring an ITSMS
  Development of metrics, performance indicators and dashboards
  ISO 20000 internal Audit
  Management review of an ITSMS
  Implementation of a continual improvement program
  Preparing for an ISO 20000 certification audit

Day 5: Certification Exam

Wymagania:
ISO 20000 Foundation Certification or basic knowledge of ISO 20000 and ITIL is recommended

Poziom trudności

Certyfikaty:
The “Certified ISO/IEC 20000 Lead Implementer” exam fully meets the requirements of the PECB Examination and Certification Programme (ECP). The exam covers the following competence domains:

  Domain 1: Fundamental principles and concepts of Information Technology Service
  Domain 2: Information Technology Service Best Practice based on ISO 20000-2
  Domain 3: Planning an ITSMS based on ISO 20000
  Domain 4: Implementing an ITSMS based on ISO 20000
  Domain 5: Performance evaluation, monitoring and measurement of an ITSMS based on ISO 20000
  Domain 6: Continual improvement of an ITSMS based on ISO 20000
  Domain 7: Preparing for an ISO 20000-1 certification audit

The “Certified ISO/IEC 20000 Lead Implementer” exam is available in different languages (the complete list of languages can be found in the examination application form)

Duration: 3 hours

For more information about the exam, refer to PECB section on ISO 20000 Lead Implementer Exam
After successfully completing the exam, participants can apply for the credentials of Certified ISO/IEC 20000 Provisional Implementer, Certified ISO/IEC 20000 Implementer or Certified ISO/IEC 20000 Lead Implementer, depending on their level of experience.

A certificate will be issued to participants who successfully pass the exam and comply with all the other requirements related to the selected credential.

For more information about ISO 20000 certifications and PECB certification process, refer to PECB section on ISO 20000 Lead Implementer.

**Prowadzący:**

Authorized PEBC Trainer.

**Informacje dodatkowe:**

- This training is based on both theory and practice:
  - Sessions of lectures illustrated with examples based on real cases
  - Practical exercises based on a full case study including role playing and oral presentation
  - Review exercises to assist the exam preparation
  - Practice test similar to the certification exam
- To benefit from the practical exercises, the number of training participants is limited
- Certification fees are included in the exam price
- A student manual containing over 450 pages of information and practical examples will be distributed to participants
- A participation certificate of 31 CPE (Continuing Professional Development) credits will be issued to participants
- In case of failure of the exam, participants are allowed to retake the exam for free under certain conditions
