Szkolenie: Mile2

C)RMFA - Risk Manager Framework Analyst

Cel szkolenia:

Mile2’s Risk Management Framework Analyst training quantifies the process of certifying, reviewing, and accrediting an information system by IT professionals.

Specifically, this course was created as a standard to measure the set of skills that specific members of an organization are required to have for the practice of certifying, reviewing, and accrediting the security of information systems. Specifically, this training was designed for the individuals who are responsible for creating and implementing the processes used to evaluate risk and institute security baselines and requirements. These critical decisions will be essential in making sure that the security of the information systems outweighs the potential risks to an organization from any internal or external threats.

Who Should Attend:

- IS Security Officers
- IS Managers
- Risk Managers
- Auditors
- Information Systems Owners
- IS Control Assessors
- System Managers
- Government Employees

Mile2® is:

ACCREDITED by the NSA CNSS 4011-4016

MAPPED to NIST / Homeland Security NICCS's Cyber Security Workforce Framework

APPROVED on the FBI Cyber Security Certification Requirement list (Tier 1-3)

Plan szkolenia:

- Module 1 – Introduction to the RMF
- Module 2 – The Software Development Life Cycle
