

Cel szkolenia:

Crisis Management Foundation (CMF) introduces you to the fundamentals of effective crisis management and crisis communications. In the course, you will familiarize yourself with the crisis management lifecycle, and you will learn what activities you need to perform in each crisis-stage to work towards successful recovery. You will understand how an internal crisis organisation functions and what resources it needs to perform its tasks. You will acquire the basics of crisis management planning and reputation management; and you will gain insight into best practices for managing employee and media communications during a crisis.

What will you learn?

- Factors that may trigger a crisis, what crisis management activities should be performed in each stage
- Crisis management strategy and organisation
- Effective internal and external crisis communications, Stakeholder analysis, crisis communication and reputation management

Who should attend?

The course is suitable for absolute beginners interested in learning the basics of crisis management and crisis communications. If you already have a good understanding of crisis management principles and you would like to gain more in-depth knowledge, we advise you to register for the Practitioner level.

Plan szkolenia:

- Introduction to managing a crisis

Understand what factors may trigger a crisis and learn what crisis management activities should be performed in each stage of the crisis. Learn how a Crisis Management Organisation should operate, and what aspects should be included in an organisation's crisis management strategy.

- Definition of crisis, crisis management and crisis communications
- The relationship between crisis management and business continuity management
- The characteristics and impact of a crisis
