- Module 6: View Administrator
 - Configure the Horizon View environment
 - Manage users, sessions, and policies
 - Configure and provision automated pools of desktops
 - Explain role-based delegated administration
 - Monitor the Horizon View environment
- Module 7: Configuring and Managing Linked Clones
 - Introduce View Composer operations
 - Deploy and provision linked-clone desktops
 - Manage linked-clone desktops
 - Manage persistent disks
- Module 8: Local-Mode Desktops
 - Configure local-mode desktops
 - Describe View Transfer Server and the Transfer Server repository
 - Describe local-mode operations
- Module 9: Managing VMware Horizon View Security
 - Describe network configuration and authentication options
 - Configure the Horizon View security server
- Module 10: View Persona Management
 - Configure user profiles with View Persona Management
 - Describe View Persona Management and Windows roaming profiles
 - Configure a View Persona Management deployment
 - Describe best practices for a View Persona Management deployment
- Module 11: Command-Line Tools and Backup Options
 - Introduce vdmadmin utility
 - Describe client systems in kiosk mode
 - Back up the Horizon View databases
 - Restore the Horizon View databases
- Module 12: View Connection Server Performance and Scalability
 - Describe replica connection servers
 - Explain performance considerations and load balancing
- Module 13: VMware Horizon Application Manager
 - Ensure that VMware® Horizon Application Manager™ is working
 - Introduce Application Manager components
 - Describe single sign-on from Horizon View to Horizon View desktops

- Enable browser access to Horizon View desktops through Horizon View
- Entitle applications by using Horizon View
- Module 14: VMware ThinApp
 - Use ThinApp to capture applications
 - Deploy and update ThinApp packages
 - Virtualize Internet Explorer 6 for use on a Windows 7 system
 - Manage ThinApp applications in Horizon View

Wymagania:

- Experience in Microsoft Windows Active Directory administration
- Experience with VMware® vSphere®
- Before attending this course, you must be able to perform the following tasks:
 - Create a template in VMware® vCenter Server™ and deploy a virtual machine from the template
 - Modify a template customization file
 - Open a virtual machine console in vCenter Server and access the guest operating system
 - Configure Active Directory services

Poziom trudności

Certyfikaty:

Uczestnicy otrzymują po zakończeniu szkolenia zaświadczenie o ukończeniu autoryzowanego kursu HPE.

Prowadzący:

Autoryzowany wykładowca firmy HPE.
