Cel szkolenia:

Red Hat JBoss Application Administration II (JB348) prepares students to provision and manage **Red Hat® JBoss® Enterprise Application Platform (JBoss EAP)** in large-scale production environments. Intended for experienced administrators, this course provides a deeper understanding of how to work with JBoss EAP by taking a closer look at installation, clustering, deployments, scripting, management, messaging, and security with a view towards building on the skills established in **Red Hat JBoss Application Administration I (JB248)**.

This course is based on JBoss EAP 7.

Audience for this course:

- Experienced system administrators responsible for deploying and administering JBoss Enterprise Application Platform 7 in large-scale production environments
- At least 2 years of experience as a JBoss EAP administrator
- IT professionals who have taken and passed **Red Hat Certified JBoss Administrator (RHCJA) exam (EX248)** and earned their **Red Hat Certified JBoss Administrator (RHCJA) certifications** on JBoss EAP 7

Plan szkolenia:

- What's new in JBoss EAP 7?

- Describe the new features of JBoss EAP 7.
- Migrate to JBoss EAP 7
 - Explore strategies for migrating from JBoss EAP 6 to JBoss EAP 7.
- Clustering
 - Demonstrate clustering components, their configuration, and application to clustered architectures.
- Deployment
 - Learn to deploy an application in various types of production environments.
- Scripting
 - Learn to script various configuration and management scenarios using the CLI.
- Management
 - Use various tools to monitor and manage JBoss EAP 7.
- Messaging
 - Learn how to manage supported messaging systems.
- Secure applications
 - Configure security settings to restrict authorization and authentication to secure Java™ EE applications.
- Secure JBoss EAP
 - Configure security settings that include authentication, authorization, and the management console.
- Comprehensive review
 - Review tasks and concepts from Red Hat JBoss Application Administration II (JB348).

Wymagania:

- It is recommended to take **Red Hat JBoss Application Administration I (JB248)** or have equivalent experience
- **Red Hat Certified JBoss Administrator (RHCJA) certification** on Enterprise Application Platform 6 (or later) or have equivalent experience

Poziom trudności

Certyfikaty:

Uczestnicy szkolenia otrzymują **certyfikat** sygnowany przez firmę **Red Hat**.

Prowadzący:

Red Hat Certified Instructor.
