Cel szkolenia:

Around the world, there are many organizations in both the public and private sectors, who recognize that their portfolio, programme and project management is best supported through a delivery support office. PRINCE2®, Managing Successful Programmes (MSP®), Management of Portfolio’s (MOP®) and Management of Risk (M_o_R®) all touch on the need to provide adequate support structures. P3O® provides a single source of information for guidance or advice on setting up or running an effective delivery support office. Portfolio, Programme and Project Offices (P3O®) is a Best Management Practice certification that brings together a set of principles, processes and techniques to facilitate effective portfolio, programme and project management through enablement, challenge and support structures.
The purpose of the **P3O® 2013 Foundation course**, is that the candidate learns the:

- High-level P3O® model and its component offices
- Differences between Portfolio, Programme and Project Management
- Key functions and services of a P3O®
- Reasons for establishing a P3O® model
- Differences between types of P3O® model and the factors that influence selection of the most appropriate model
- Processes to implement or re-energize a P3O®
- Tools and techniques used by a P3O®
- Purpose and major responsibilities of the defined roles

The purpose of the **P3O® Practitioner course** is to obtain sufficient knowledge and understanding of the P3O® guidance to design, implement, manage or work within any component office of a P3O® model. Candidates will have an overall understanding of the elements, roles, functions and tools and techniques deployed in a generalized P3O model. Additional training may be required if the candidate is to take up one of the specialist roles in the P3O organization.

**Course Approach:**

- An Introduction to P3O® - Discussing why, when and how to use P3O® models including the difference between portfolio, programmes and project environments and their different requirements
- Value - What value P3O® can bring to the organization including a business case, funding models and performance measures
- Model - An overview of the different P3O® models with examples
- Functions and Techniques - Details on the functions/services and techniques/tools used by units of a P3O® model.

**Plan szkolenia:**
