Cel szkolenia:

**Szkolenie + egzamin w cenie**

*Portfolio management* is a coordinated collection of strategic processes and decisions that enable an effective balance of organizational change and business as usual. *Management of Portfolios (MoP®)* approaches change projects and programmes from a strategic viewpoint. It provides an overview of all change activities including what is in the portfolio, what it is costing, what risks are faced, what progress is being made, and what the impact is on business as usual and the organization’s strategic objectives. The MoP qualification scheme has been developed to offer two levels of qualification, **Foundation** and **Practitioner**. The purpose of the **MoP® Foundation certification** is to confirm you have sufficient knowledge and understanding to work as an informed member of a Portfolio Office or in a range of portfolio management roles. The **Foundation** level is also a pre-requisite for the **Practitioner certification**.

At the end of this course, you will be able to understand the principles, cycles, practices, techniques, roles, responsibilities, documents and organizational context within which portfolio management operates. Specifically to know and understand the:

- scope and objectives of portfolio management and how it differs from programme and project management
- benefits from applying portfolio management
○ context within which it operates
○ principles upon which successful portfolio management is based
○ approaches to implementation, the factors to consider in maintaining progress, and how to assess the success of portfolio management
○ purposes of the portfolio management definition and delivery cycles and their component practices, and relevant techniques applicable to each practice
○ purpose and key content of the major portfolio documents
○ scope of key portfolio management roles.

The course comprises a mixture of input sessions, group exercises and examination based practical work. All delegates are encouraged to actively participate during the practical sessions to gain the full benefit during the training. During the course, delegates will undertake a number of mock examinations and gain feedback on the progress towards eventual success. To prepare effectively for the MOP® Foundation exam, delegates should be prepared to undertake revision and exam preparation work in the evenings.

Plan szkolenia:

○ Introduction to Portfolio Management
○ The Portfolio Management Model,
  ○ Cost effectiveness,
  ○ Objectives and Benefits
○ Implement, Sustain and Measure
  ○ Seven steps to implementation
