## LOKALIZACJE

Kraków - ul. Tatarska 5, II piętro, godz. 9:00 - 16:00

Warszawa - ul. Bielska 17, godz. 9:00 - 16:00

## DOSTĘPNE TERMINY

2019-06-03 | 3 dni | Warszawa

2019-06-03 | 3 dni | Warszawa

## Cel szkolenia:

**Red Hat OpenShift Administration I (DO280)** enables system administrators, architects, and developers to acquire the skills they need to administer **Red Hat® OpenShift Container Platform**. Through numerous hands-on exercises, the student will create, configure, manage, and troubleshoot OpenShift clusters. Students will also deploy sample applications to further understand development use cases. This creates an environment that supports DevOps principles such as reduced time to market and continuous delivery.

This **course** is based on **Red Hat OpenShift Container Platform 3.5**.

Audience for this course:

- This course is designed for system administrators, architects, and developers who want to install and configure **Red Hat OpenShift Container Platform**.

## Plan szkolenia:

- Introduction to Red Hat OpenShift Container Platform
  - Review features and architecture of OpenShift Container Platform.
- Install OpenShift Container Platform
  - Install OpenShift Container Platform and configure a master and node.
- Explore networking concepts

- Describe and explore OpenShift networking concepts.
- Execute commands
  - Execute commands using the command-line interface.
- OpenShift Container Platform resources
  - Control access to OpenShift Container Platform resources.
- Persistent storage
  - Provision persistent storage and use it for the internal registry.
- Manage application deployments
  - Manipulate resources to manage deployed applications.
- Metrics subsystem
  - Install and configure the metrics- gathering system.
- Manage and monitor
  - Manage and monitor OpenShift Container Platform resources and software.
- Comprehensive review
  - Install, configure, and deploy an application on a cluster.

## Wymagania:

Red Hat recommends these prerequisites:

- Be **certified** as a [Red Hat Certified System Administrator \(RHCSA\)](#), or equivalent Red Hat Enterprise Linux system administration experience

Complete the **Introduction to Containers, Kubernetes, and Red Hat OpenShift (DO180) course** or have equivalent experience with containers, Kubernetes, and OpenShift basics.

## Poziom trudności

## Certyfikaty:

Participants will obtain **certificates** signed by **Red Hat**.

## Prowadzący:

Red Hat Certified Instructor

## Informacje dodatkowe:

Recommended next **exam** or **course**:

- [EX280](#) **Red Hat Certified Specialist in OpenShift Administration**
- **DO380 Red Hat OpenShift Administration II**
