Cel szkolenia:

This course is part of a series of four courses to help you prepare for Microsoft's Azure Developer certification exam AZ-201: Develop Advanced Microsoft Azure Cloud Solutions. These courses are designed for developers who already know how to code in at least one of the Azure-supported languages.

The coursework covers how to integrate and manage APIs by using the API Management service, configure a message-based integration architecture, and develop an application message model.

Audience profile:

- These courses are for experienced programmers who want to develop and host solutions in Azure. Learners should have some experience with Azure and must be able to program in at least one Azure-supported language. These course focus on C#, Node.js, Azure CLI, Azure PowerShell, and JavaScript.

After completing this course, students will be able to:

- Manage APIs by using API Management (APIM)
- Create an APIM instance, configure authentication for APIs, create an API gateway, and define policies for APIs
- Configure a message-based integration architecture by using the services included in Azure.
- Configure an app or service to send email
- Develop an application message model including message schema and message exchange.

- Create an event model, topics, and subscriptions

Plan szkolenia:

- Manage APIs by using API Management
 - Analyze recommendations in Security Center
 - Create an API Management instance
 - Configure authentication for APIs
 - Create an API gateway
 - Define policies for APIs
- Configure a message-based integration architecture
 - Configure an app or service to send emails
 - Configure an event publish and subscribe model
 - Configure the Azure Relay service
 - Create and configure a notification hub
 - Create and configure an event hub
 - Create and configure a service bus
 - Configure an app or service with Microsoft Graph
- Develop an application message model
 - Create an event model
 - Create topics and subscriptions

Poziom trudności

Certyfikaty:

Uczestnicy otrzymują **certyfikat** ukończenia autoryzowanego kursu **Microsoft**.

Prowadzący:

Microsoft Certified Trainer.

Informacje dodatkowe:

Zajęcia prowadzone są w języku polskim, materiały źródłowe oraz oprogramowanie są w języku angielskim.
