## Cel szkolenia:

### What is TrainingPass?

Find answers to questions about everyday operational and administrative tasks related to your BIG-IP system and environment. TrainingPass includes more than 50 mini-lessons and episodes - organized in multiple series - each with a video and carefully curated resources that cover:

- Preventative maintenance: Discover iHealth and other tools to keep your BIG-IP system running with greater efficiency
- Setup tasks: Understand and perform configuration and administration tasks to get any BIG-IP system up and running
- Security: Ensure your BIG-IP system and the applications it delivers are secure
- Ongoing Operations: Learn daily performance and security monitoring tasks, and get help with automating operations

### TrainingPass Benefits:

- Technical Operations and Administration Content: trainingPass courses provide a broad set of technical training content that covers key F5 infrastructure and security technologies with a focus on: Setup, Preventative Maintenance, Ongoing Operations, Troubleshooting, and Security.
- Grow Your Professional Skills: the course catalog delivers leading-edge content that maps to current business and technology needs to help ensure your applications and solutions are Available, Fast and Secure.
- Consume at Your Own Pace: all courses are provided online so that they can be accessed 24x7 to accommodate the shifting schedules of IT and DevOps professionals.
