## LOKALIZACJE

Kraków - ul. Tatarska 5, II piętro, godz. 9:00 - 16:00

Warszawa - ul. Bielska 17, godz. 9:00 - 16:00

## Cel szkolenia:

In [AZ-500T00 Microsoft Azure Security Technologies](#) course students will gain the knowledge and skills needed to implement security controls, maintain the security posture, and identify and remediate vulnerabilities by using a variety of security tools. The course covers scripting and automation, virtualization, and cloud N-tier architecture.

### Audience profile:

Students should have at least one year of hands-on experience securing Azure workloads and experience with security controls for workloads on Azure.

After completing this course, students will be able to:

- Describe specialized data classifications on Azure
- Identify Azure data protection mechanisms
- Implement Azure data encryption methods
- Secure Internet protocols and how to implement them on Azure
- Describe Azure security services and features

## Plan szkolenia:

- Identity and AccessLessons
  - Configure Azure Active Directory for Azure workloads and subscriptions
  - Configure Azure AD Privileged Identity Management
  - Configure security for an Azure subscription
- Platform ProtectionLessons

- Understand cloud security
- Build a network
- Secure network
- Implement host security
- Implement platform security
- Implement subscription security
- Security OperationsLessons
  - Configure security services
  - Configure security policies by using Azure Security Center
  - Manage security alerts
  - Respond to and remediate security issues
  - Create security baselines
- Data and applicationsLessons
  - Configure security policies to manage data
  - Configure security for data infrastructure
  - Configure encryption for data at rest
  - Understand application security
  - Implement security for application lifecycle
  - Secure applications
  - Configure and manage Azure Key Vault

## Wymagania:

Before attending this course, students must have knowledge of:

- Microsoft Azure Administrator Associate

## Poziom trudności

## Certyfikaty:

Uczestnicy kursu **AZ-500T00 Microsoft Azure Security Technologies** otrzymują **certyfikat** ukończenia autoryzowanego szkolenia **Microsoft**.

## Prowadzący:

Microsoft Certified Trainer.

## Informacje dodatkowe:

Zajęcia prowadzone są w języku polskim, materiały źródłowe oraz oprogramowanie są w języku angielskim.
