

Szkolenie: IBM Essentials of IBM Rational DOORS Next Generation

Cel szkolenia:

Please note that as of version 6.0.6, the IBM Rational DOORS Next Generation (RDNG) has been renamed to IBM Engineering Requirements Management DOORS Next (DOORS Next)

This course teaches analysts and engineers how to define, elaborate, organize, and manage textual and graphical requirements and requirements-related information in IBM® Rational® DOORS Next Generation v6. Rational DOORS Next Generation is a key component of the Rational solution for Collaborative Lifecycle Management (CLM). The product provides requirements definition and management capabilities in a fully-integrated environment that can also include IBM® Rational Team Concert for change and configuration management, and IBM® Rational® Quality Manager for quality management.

Leverage Global Configuration features View and work with requirements and other artifacts in a collaborative context Create and edit requirements documents and other artifacts, including both textual and graphical artifacts Create, manage, and view traceability relationships between requirements and other artifacts

Business Analyst, Systems Engineer, Software Engineer, Requirements Engineer, Requirements Manager, Requirements Team Leader
