LOKALIZACJE

Kraków - ul. Tatarska 5, II piętro, godz. 9:00 - 16:00

Warszawa - ul. Bielska 17, godz. 9:00 - 16:00

Cel szkolenia:

This course will provide the fundamental methodologies, concepts, processes, and techniques to successfully manage a project. You will apply project management concepts and processes to real-life projects — allowing you to generate immediate results that are usable in your current business situation — or to a case study that you select from several available. You will acquire hands-on experience in applying new concepts in a project team environment.

By mastering this course, you will be able to:

- Apply principles defined in the "A Guide to the Project Management Body of Knowledge" (PMBOK® Guide) - Sixth Edition for initiating, planning, managing and closing projects
- Apply the concepts from the Process Groups and Knowledge Areas in a project environment
- Use this Project Management Fundamentals course book as a reference resource

Audience

This course is intended for people who manage or expect to manage projects as part of their primary work and are at a foundation level of proficiency. It is especially well-suited as an introductory course for individuals seeking project management certification.

Plan szkolenia:

- Define and Organize the Project
 - Define key concepts in project management

- Identify the Process Groups and Knowledge Areas used to manage a project
- Describe steps needed to initiate a project
- Create a project charter
- Describe life cycles
- Identify project stakeholders
- Define and document project requirements
- Develop a project scope statement
- Plan the Project
 - Identify planning principles
 - Create a work breakdown structure
 - Prepare a project schedule
 - Develop cost estimates and a budget
 - Identify and manage risk
 - Finalize the project management plan
- Manage Project Progress
 - Manage the project
 - Measure and report progress
 - Manage change
 - Close the project

Wymagania:

- Project management experience is helpful but not required
- Project team experience is desirable
