AB-6007: Secure and Govern your AI agent workforce

Microsoft
Partner

TRAINING GOALS:

Learn how to administer and secure AI agents in Microsoft 365 with Microsoft Agent 365. This course combines focused instruction with hands-on labs covering agent discovery, identity governance, data protection, and threat monitoring across the Microsoft 365 admin experience.

Audience Profile:

Learners are expected to have working familiarity with Microsoft 365 administration — including the Microsoft 365 admin center, Microsoft Entra basics (users, groups, Conditional Access), and core Microsoft Purview concepts. This course is intended for IT professionals responsible for administering Microsoft 365 environments that use AI agents.

CONSPECT:

- Explore Microsoft Agent 365
 - Module 1: Get started with Microsoft Agent 365
 - Module 2: Monitor and manage agents with Microsoft Agent 365
 - Module 3: Govern agents using Agent 365

REQUIREMENTS:

No prerequisites specified at the course level. Learners are expected to have working familiarity with Microsoft 365 administration.

Difficulty level

CERTIFICATE:

The participants will obtain certificates signed by Microsoft (course completion). This course is not directly mapped to a Microsoft certification exam.

TRAINER:

Microsoft Certified Trainer (MCT)
