

#### Training: PECB® NIS2 Directive Lead Implementer

# PECB

# TRAINING GOALS:

The Certified NIS2 Directive Lead Implementer training course enables participants to gain the necessary competencies to support organizations in effectively planning, implementing, managing, monitoring, and maintaining a cybersecurity program that meets the requirements of the NIS2 Directive.

#### Course Objectives

Upon successfully completing the training course, you will be able to:

- Explain the fundamental concepts of NIS2 Directive and its requirements
- Obtain a thorough comprehension of the principles, strategies, methodologies, and tools necessary for implementing and efficiently managing a cybersecurity program in compliance with NIS2 Directive
- $\circ\,$  Learn how to interpret and implement NIS2 Directive requirements in the specific context of an organization
- Initiate and plan the implementation of NIS2 Directive requirements, by utilizing PECB's methodology and other best practices
- Acquire the necessary knowledge to support an organization in effectively planning, implementing, managing, monitoring, and maintaining a cybersecurity program in compliance with NIS2 Directive

Why Should You Attend?

The importance of robust cybersecurity measures cannot be overstated, as organizations are increasingly facing all types of cyberattacks. The NIS2 Directive is a legislation that has been designed to strengthen the cybersecurity posture of critical infrastructure sectors, including energy, transport, healthcare, and digital services.

By attending the NIS2 Directive Lead Implementer training course, you gain in-depth knowledge of the directive's requirements, implementation strategies, and best practices that protect critical infrastructure from cyber threats. Through interactive sessions and practical exercises, you will learn how to assess organization's cybersecurity risks, develop robust incident response plans, and implement effective security measures to meet the requirements of NIS2 Directive. Moreover, you will gain insights into industry standards and best practices that will enable you to stay up to date with the evolving threat landscape and implement cutting-edge cybersecurity solutions. After successfully completing this training course, you will become a trusted cybersecurity professional that possesses the expertise to navigate the complex landscape of critical cybersecurity infrastructure and contribute

to the resilience of your organization and society as a whole.

After passing the exam, you can apply for the "PECB Certified NIS2 Directive Lead Implementer" credential.

Who Should Attend?

This training course is intended for:

- Cybersecurity professional seeking to gain a thorough understanding of the requirements of NIS2 Directive and learn practical strategies to implement robust cybersecurity measures
- IT managers and professionals aiming to gain insights on implementing secure systems and improve the resilience of critical systems
- Government and regulatory officials responsible for enforcing the NIS2 Directive

## CONSPECT:

- $\circ\,$  Introduction to NIS2 Directive and initiation of the NIS2 Directive implementation
- Analysis of NIS2 Directive compliance program, asset management, and risk management
- · Cybersecurity controls, incident management, and crisis management
- Communication, testing, monitoring, and continual improvement in cybersecurity
- Certification exam

### **REQUIREMENTS:**

The main requirements for participating in this training course are having a fundamental understanding of cybersecurity.

Difficulty level

### CERTIFICATE:

The participants will obtain certificates signed by PECB (course completion).

The "PECB Certified NIS2 Directive Lead Implementer" exam meets all the requirements of the PECB Examination and Certification Program (ECP). It covers the following competency domains:

- Domain 1: Fundamental concepts and definitions of NIS2 Directive
- Domain 2: Planning of NIS2 Directive requirements implementation

www.compendium.pl

- Domain 3: Cybersecurity roles and responsibilities and risk management
- Domain 4: Cybersecurity controls, incident management, and crisis management
- Domain 5: Communication and awareness
- $\circ\,$  Domain 6: Testing and monitoring of a cybersecurity program

For specific information about exam type, languages available, and other details, please visit the <u>List</u> of <u>PECB Exams</u> and the <u>Examination Rules and Policies</u>.

After successfully passing the exam, you can apply for one of the credentials:

- PECB Certified NIS2 Directive Provisional Implementer
- PECB Certified NIS2 Directive Implementer
- PECB Certified NIS2 Directive Lead Implementer
- PECB Certified NIS2 Directive Senior Lead Implementer

You will receive the certificate once you comply with all the requirements related to the selected credential. For more information about NIS2 certifications and the PECB Certification process, please refer to <u>Certification Rules and Policies</u>.

### TRAINER:

Authorized PEBC Trainer.

### ADDITIONAL INFORMATION:

- $\circ\,$  Certification and examination fees are included in the price of the training course.
- Participants will be provided with training course materials containing over 400 pages of information, practical examples, exercises, and quizzes.
- An attestation of course completion worth 31 CPD (Continuing Professional Development) credits will be issued to the participants who have attended the training course.
- Candidates who have completed the training course but failed the exam are eligible to retake the exam once for free within a 12-month period from the initial date of the exam.
