

Training: PECB®
ISO/IEC 27002 Foundation

TRAINING GOALS:

ISO/IEC 27002 Foundation training course provides information on the fundamental concepts of information security, cybersecurity and privacy based on ISO/IEC 27002.

Course Objectives

By successfully completing this training course, you will be able to:

- Explain the fundamental concepts of information security, cybersecurity, and privacy based on ISO/IEC 27002
- Discuss the relationship between ISO/IEC 27001, ISO/IEC 27002, and other standards and regulatory frameworks
- Interpret the ISO/IEC 27002 organizational, people, physical, and technological controls in the specific context of an organization

Why Should You Attend?

ISO/IEC 27002 Foundation training course enables participants to learn the basic concepts related to the implementation and management of information security controls based on the guidelines of ISO/IEC 27002. Through this training course, participants will be able to identify the information security controls of ISO/IEC 27002 that are categorized into four themes: organizational, people, physical, and technological. The training course also provides information on how ISO/IEC 27002 is related with other standards, such as ISO/IEC 27001 and ISO/IEC 27003.

The training course is followed by an exam. If you pass, you can apply for the “PECB Certificate Holder in ISO/IEC 27002 Foundation” certificate. This certificate demonstrates that you have a general knowledge of ISO/IEC 27002 information security controls.

Who Should Attend?

This training course is intended for:

- Managers and consultants seeking to know more about information security controls of ISO/IEC 27002
- Professionals engaged in or responsible for information security management
- Individuals seeking to gain knowledge about the main processes of an information security management system and information security controls
- Individuals interested to pursue a career in information security

CONSPECT:

- Introduction to ISO/IEC 27002 and organizational controls
- People, physical, and technological controls and certificate exam

REQUIREMENTS:

There are no prerequisites to participate in this training course.

Difficulty level

CERTIFICATE:

The participants will obtain certificates signed by PECB (course completion).

The exam fully meets the requirements of the PECB Examination and Certificate Programme. It covers the following competency domains:

- Domain 1: Fundamental principles and concepts of information security, cybersecurity, and privacy
- Domain 2: Information security controls based on ISO/IEC 27002

For specific information about exam type, languages available, and other details, please visit the [List of PECB Exams](#) and the [Examination Rules and Policies](#).

After successfully passing the exam, you can apply for the “PECB Certificate Holder in ISO/IEC 27002 Foundation” certificate. This is an entry-level credential.

There are no prerequisites on professional or management system project experience required. Thus, following the training course, passing the exam and applying for the certificate are the only certificate program requisites that certificate holders shall meet before obtaining the certificate.

For more information, please refer to the [Certification Rules and Policies](#).

TRAINER:

Authorized PEBC Trainer.

ADDITIONAL INFORMATION:

- Certificate and examination fees are included in the price of the training course.
- Training material containing over 200 pages of information and practical examples will be distributed.
- An attestation of course completion worth 14 CPD (Continuing Professional Development) credits will be issued to the participants who have attended the training course.
- In case of exam failure, you can retake the exam within 12 months for free.
