

Training: PECB®
ISO/IEC 27002 Manager**PECB**

TRAINING GOALS:

ISO/IEC 27002 Manager training course provides information on the implementation and management of information security controls based on ISO/IEC 27002.

Course Objectives

By successfully completing this training course, you will be able to:

- Explain the fundamental concepts of information security, cybersecurity, and privacy based on ISO/IEC 27002
- Discuss the relationship between ISO/IEC 27001, ISO/IEC 27002, and other standards and regulatory frameworks
- Support an organization in effectively determining, implementing, and managing information security controls based on ISO/IEC 27002

Why Should You Attend?

ISO/IEC 27002 Manager enables participants to acquire the necessary knowledge and skills to support an organization in selecting, implementing, and managing information security controls based on ISO/IEC 27002. The training course provides information that will help participants in gaining a thorough understanding of how information security risks can be treated by selecting relevant controls, especially in the context of an information security management system (ISMS).

A PECB ISO/IEC 27002 Manager certification will enable you to demonstrate your comprehensive knowledge in the implementation and management of information security controls based on industry best practices.

Who Should Attend?

This training course is intended for:

- Managers involved in the implementation of an information security management system (ISMS) based on ISO/IEC 27001
- IT professionals and consultants seeking to enhance their knowledge in information security
- Members of an ISMS implementation or information security team
- Individuals responsible for information security in an organization

CONSPECT:

- Introduction to ISO/IEC 27002
- Information assets, people controls, physical controls, and operational security controls
- Information security incident management and monitoring of information security controls and certification exam

REQUIREMENTS:

The main requirements for participating in this training course are having a fundamental understanding of ISO/IEC 27002 and comprehensive knowledge of information security.

Difficulty level

CERTIFICATE:

The participants will obtain certificates signed by PECB (course completion).

The “PECB Certified ISO/IEC 27002 Manager” exam meets all the requirements of the PECB Examination and Certification Program (ECP). It covers the following competency domains:

- Domain 1: Fundamental principles and concepts of information security, cybersecurity, and privacy
- Domain 2: Information security controls based on ISO/IEC 27002

For specific information about exam type, languages available, and other details, please visit the [List of PECB Exams](#) and the [Examination Rules and Policies](#).

After successfully passing the exam, you can apply for one of the credentials:

- PECB Certified ISO/IEC 27002 Provisional Manager
- PECB Certified ISO/IEC 27002 Manager

You will receive the certificate once you comply with all the requirements related to the selected credential. For more information about ISO/IEC 27002 certifications and the PECB Certification process, please refer to [Certification Rules and Policies](#).

TRAINER:

Authorized PEBC Trainer

ADDITIONAL INFORMATION:

- Certification fees and examination fees are included in the price of the training course.
- Participants will be provided with training material containing over 350 pages of information and practical examples.
- An attestation of course completion worth 21 CPD (Continuing Professional Development) credits will be issued to the participants who have attended the training course.
- Candidates who have completed the training course but failed the exam are eligible to retake it once for free within a 12-month period from the initial date of the exam.
