

Training: PECB®
ISO/IEC 27002 Lead Manager

PECB

TRAINING GOALS:

The ISO/IEC 27002 Lead Manager training course enables participants to acquire a comprehensive knowledge and understanding of the implementation and management of information security controls based on ISO/IEC 27002.

Course Objectives

Upon successfully completing the training course, participants will be able to:

- Explain the fundamental concepts of information security, cybersecurity, and privacy based on ISO/IEC 27002
- Acknowledge the relationship between ISO/IEC 27001, ISO/IEC 27002, and other standards and regulatory frameworks
- Interpret the ISO/IEC 27002 information security controls in the specific context of an organization
- Support an organization in effectively determining, implementing, and managing information security controls based on ISO/IEC 27002
- Explain the approaches and techniques used for the implementation and effective management of information security controls

Why Should You Attend?

The ISO/IEC 27002 Lead Manager training course enables participants to develop the necessary knowledge and skills for supporting an organization in effectively determining, implementing, and managing information security controls. The training course provides information that will help participants interpret the ISO/IEC 27002 controls in the specific context of an organization.

The PECB ISO/IEC 27002 Lead Manager Certification demonstrates that you have acquired the necessary expertise for determining adequate information security controls needed to treat the risks identified by a risk assessment process.

The training course is followed by an exam. If you pass, you can apply for the “PECB Certified ISO/IEC 27002 Lead Manager” credential.

Who Should Attend?

This training course is intended for:

- Managers or consultants seeking to enhance their knowledge regarding the implementation of

information security controls in an ISMS based on ISO/IEC 27001

- Individuals responsible for maintaining information security, compliance, risk, or governance in an organization
- IT professionals or consultants seeking to enhance their knowledge in information security
- Members of an ISMS implementation or information security team

CONSPECT:

- Introduction to ISO/IEC 27002
- Roles and responsibilities, assets, policies, and people controls
- Physical controls and protection of information systems and networks
- Information security incident management and testing and monitoring of information security controls based on ISO/IEC 27002
- Certification exam

REQUIREMENTS:

The main requirements for participating in this training course are having a fundamental understanding of ISO/IEC 27002 and comprehensive knowledge of information security controls.

Difficulty level

CERTIFICATE:

The participants will obtain certificates signed by PECB (course completion).

The “PECB Certified ISO/IEC 27002 Lead Manager” exam meets all the requirements of the PECB Examination and Certification Program (ECP). It covers the following competency domains:

- Domain 1: Fundamental principles and concepts of information security, cybersecurity, and privacy
- Domain 2: Information security management system (ISMS) and initiation of ISO/IEC 27002 information security controls implementation
- Domain 3: Implementation and management of organizational and people controls based on ISO/IEC 27002
- Domain 4: Implementation and management of physical and technological controls based on ISO/IEC 27002
- Domain 5: Performance measurement, testing, and monitoring of ISO/IEC 27002 information security controls

For specific information about exam type, languages available, and other details, please visit the [List of PECB Exams](#) and the [Examination Rules and Policies](#).

After successfully passing the exam, you can apply for one of the credentials:

- PECB Certified ISO/IEC 27002 Provisional Manager
- PECB Certified ISO/IEC 27002 Manager
- PECB Certified ISO/IEC 27002 Lead Manager
- PECB Certified ISO/IEC 27002 Senior Lead Manager

You will receive the certificate once you comply with all the requirements related to the selected credential. For more information about ISO/IEC 27002 certifications and the PECB Certification process, please refer to [Certification Rules and Policies](#).

TRAINER:

Authorized PEBC Trainer.

ADDITIONAL INFORMATION:

- Certification and examination fees are included in the price of the training course
- Participants will be provided with training course materials containing over 450 pages of information, practical examples, exercises, and quizzes.
- An attestation of course completion worth 31 CPD (Continuing Professional Development) credits will be issued to the participants who have attended the training course.
- Candidates who have completed the training course but failed the exam are eligible to retake it once for free within a 12-month period from the initial date of the exam.
