Training: Fortinet

FortiNAC-F Administrator (US)

FORTINET
Premier Authorized
Training Center

TRAINING GOALS:

In this course, you will learn how to leverage the powerful and diverse capabilities of FortiNAC-F, using best practices for achieving visibility, control, and response. These fundamentals will provide you with a solid understanding of how to implement network visibility and security automation.

Objectives

After completing this course, you should be able to:

- Configure a FortiNAC-F system to achieve network visibility
- Leverage the control capabilities for network access and automated policy enforcement
- Integrate FortiNAC-F into the Fortinet Security Fabric
- Combine the visibility and control features with security device integrations to automate threat responses to security risks

Who Should Attend

Network and security administrators, managers, and other IT staff who will use FortiNAC-F should attend this course.

CONSPECT:

- Introduction and Initial Configuration
- Achieving Network Visibility
- Identification and Classification of Rogues
- Visibility, Troubleshooting, and Logging
- Logical Networks and Fortinet Security Fabric Integration
- State-Based Control
- Security Policies
- Guest and Contractor Management
- Security Device Integration and Automated Response

- Advanced Features
- FortiNAC-F Manager Integrations

REQUIREMENTS:

It is recommended that you have an understanding of the following topics:

- Networking concepts and terms
- Networking protocols
- Infrastructure configurations

Difficulty level

■■■■□□

CERTIFICATE:

The participants will obtain certificates signed by Fortinet (course completion).

This course prepares you also for the Fortinet NSE5 - FortiNAC-F Administrator exam. This exam is part of the FCP Secure Networking certification track.

TRAINER:

Fortinet Certified Trainer (FCT)
