Training: PRINCE2®
PRINCE2 Agile® Foundation

PeopleCert

TRAINING GOALS:

PRINCE2 Agile® Foundation level is the introduction level of PRINCE2 Agile® Practitioner

PRINCE2 Agile® is the world's most complete project management solution, combining the flexibility and responsiveness of agile with the clearly defined framework of PRINCE2®. The new best practice guidance shows how this compatibility can be exploited by organizations harnessing both PRINCE2® and agile, equipping them with the required skills and processes to successfully deliver projects to meet customer requirements in today's fast paced and rapidly changing business environments:

- The combination of control and flexibility
- Clear project definitions
- Seamless integration
- Improved capability to react and adapt

PRINCE2 Agile® Foundation is a newly developed certification level to support PRINCE2 Agile®. In 2015, PRINCE2 Agile® initially launched with a Practitioner level certification and this new Foundation level will build upon that success by opening PRINCE2 Agile® out to project managers outside of the existing PRINCE2® community. The development of the new certification level will not impact the existing prerequisites for PRINCE2 Agile® Practitioner, it will add one more route for candidates

Who is PRINCE2 Agile® for:

PRINCE2 Agile® Foundation has been developed for anyone who delivers projects, large or small, in an agile context. It is a valuable training and certification scheme for anyone working within an agile project environment, whether they be a project manager, project support or part of the wider project team.
