Training: AWS
AWS Discovery Day - Migrating Applications and Databases to AWS

TRAINING GOALS:

Build the foundational knowledge required to plan and perform lift and shift migrations to the AWS Cloud. In this training you will learn about methodologies for discovering, planning, performing, and tracking migrations by using various AWS tools and services.

- **Level**: Fundamental
- **Duration**: 60 minutes

Learning objectives

During this event, you will learn to:

- Describe, at a high level, the AWS services, resources, and tools necessary for migrations of data and databases
- Describe, at a high level, the AWS services, resources, and tools necessary for migrations of applications and servers.

Intended audience

This event is intended for:

- Solutions architects
- Developers
- Administrators

Recommended follow-up training and resources

We recommend that attendees of this event continue learning with this course:

- AWS Migrations Essentials
