

Training: AWS AWS Discovery Day - Are You Well-Architected?

TRAINING GOALS:

Improve workloads in your architecture with an understanding of how the AWS Well-Architected framework provides a consistent approach to evaluate architectures and implement prescriptive architectural advice. Learn how the AWS Well-Architected Tool allows you to measure and improve your technology portfolio.

- **Level:** Fundamental
- **Duration:** 1 hour

Learning objectives

During this event, you will learn to:

- Explain the Well-Architected Framework
- Describe the pillars of the framework
- Describe design principles
- Explain how to perform a Well-Architected Framework Review
- Understand the resources and tools available in the Well-Architected Framework

Intended audience

This event is intended for:

- Solutions architects
- DevOps Engineers
- Technical professionals involved in managing, architecting, building, and operating AWS solutions

Recommended follow-up training and resources

We recommend that attendees of this event continue learning with this course:
