Training: Mile2
C)CSSA - Certified Cybersecurity Systems Auditor

TRAINING GOALS:

The Certified Cybersecurity Systems Auditor, C)CSSA , course covers the skills and knowledge to assess vulnerabilities, report on compliance and implement controls for private and public enterprises. Many organizations require an Information System Auditor's expert knowledge when it comes to identifying critical issues and providing effective auditing solutions.

Through the use of a risk-based approach, the C)CSSA is able to implement and maintain cost-effective security controls that are closely aligned with both business and industry standards.

Upon completion

The Certified Cybersecurity Systems Auditor students will be able to establish industry acceptable Cyber Security & IS management standards with current best practices and be prepared to competently take the CCSSA exam.

Each participant in an authorized Mile2 C)CSSA training held in Compendium CE will receive a free CCSSA Certified Cybersecurity Systems Auditor exam voucher.
