Training: Microsoft
SC-300T00: Microsoft Identity and Access Administrator

Microsoft Partner

TRAINING GOALS:

The Microsoft Identity and Access Administrator course explores how to design, implement, and operate an organization's identity and access management systems by using Microsoft Entra ID. Learn to manage tasks such as providing secure authentication and authorization access to enterprise applications. You will also learn to provide seamless experiences and self-service management capabilities for all users. Finally, learn to create adaptive access and governance of your identity and access management solutions ensuring you can troubleshoot, monitor, and report on your environment.

Audience Profile:
This course is for the Identity and Access Administrators who are planning to take the associated certification exam, or who are performing identity and access administration tasks in their day-to-day job. This course would also be helpful to an administrator or engineer that wants to specialize in providing identity solutions and access management systems for Azure-based solutions; playing an integral role in protecting an organization.

Skills earned upon completion:

- Implement identity and access management (IAM) in Microsoft Entra ID
- Implement an identity governance strategy with Microsoft Entra ID

CONSPECT:

- Implement an identity management solution using Microsoft Entra ID
  - Module 1: Implement initial configuration of Microsoft Entra ID
  - Module 2: Create, configure, and manage identities
  - Module 3: Implement and manage external identities
  - Module 4: Implement and manage hybrid identity
- Implement an authentication and access management solution
  - Module 1: Secure Microsoft Entra users with multifactor authentication
  - Module 2: Manage user authentication
