8008 PlateSpin Workload Management Administration

FORM OF TRAINING	MATERIALS	PRICE	DURATION
Traditional	Hardcopy	600 EUR	2 days
Traditional	Digital materials	600 EUR	2 days
Traditional	CTAB Tablet	750 EUR	2 days

## LOCATIONS

Krakow - 5 Tatarska Street, II floor, hours: 9:00 am - 4:00 pm

Warsaw - 17 Bielska Street, hours: 9:00 am - 4:00 pm

## TRAINING GOALS:

If you are working in the data center, you need **PlateSpin** products to help manage your workload. PlateSpin Recon can identify underutilized physical servers and virtual hosts for greater efficiency and significant cost savings. PlateSpin Migrate is a multi-platform workload portability solution that delivers the migration speed and reliability needed to accommodate the world's largest data centers. PlateSpin Protect is a smart enterprise solution for deploying, testing and managing your disaster recovery environment. Together, these products offer an integrated workload management solution that is sure to make managing your data center easier. In **PlateSpin Workload Management Administration**, you will learn how to install, configure, use, and troubleshoot PlateSpin Recon, PlateSpin Protect, and PlateSpin Migrate This course is for server administrators responsible for virtualization and disaster recovery in mid- to large-scale corporate data centers and for professionals who consult in data center environments.

## CONSPECT:

This course covers many topics, including:

- Understanding why PlateSpin products are needed in the data center
- Using PlateSpin Recon for inventorying and monitoring your servers
- Charting and reporting on servers with PlateSpin Recon
- Using PlateSpin Recon for server consolidation
- Doing server discovery with PlateSpin Migrate
- Using PlateSpin Migrate to configure workload migration
- Doing job execution and server migration with PlateSpin Migrate
- Creating, capturing, and deploying an image with PlateSpin Migrate
- Implementing disaster recovery using PlateSpin Protect

## REQUIREMENTS:

Before attending this course, you should be familiar with the following data center technologies and concepts:

- Virtualization with VMware
- Disaster recovery
- Microsoft Windows Server 2003 or later
- Linux server systems
- SQL databases

## Difficulty level

## CERTIFICATE:

The participants will obtain certificates signed by Novell.

## TRAINER:

Authorized Novell Trainer

## ADDITIONAL INFORMATION:

This course prepares you to take the **Certified Workload Management Administration Exam**. (050-724). For exam objectives and registration, see PlateSpin Workload Management Administration.
