

Training: Micro Focus CIT120 - Connect-It Essentials

TRAINING GOALS:

This three-day course provides students with the skills needed to effectively use and manage the HP Connect-It Software product. This administrator level course helps students understand and be able to use Connect-It as an integration tool to assist in sharing data between two or more systems. This course is 50 % lecture and 50 % hands-on.

Upon successful completion of this course, you should be able to:

- Navigate Connect-It
- Create Connect-It mappings
- Add Connect-It scripts
- Schedule Connect-It
- Set reconciliation keys
- Work with Connect-It associated files
- Create Process Reports
- Review Asset Manager and Service Manager Connector Configuration
- Migrate Connect-It Scenarios from system to system
