

Training: PECB
ISO 27005 Risk Manager

FORM OF TRAINING	MATERIALS	PRICE	DURATION
Traditional	Hardcopy	800 EUR	3 days
Traditional	CTAB Tablet	900 EUR	3 days

LOCATIONS

Krakow - 5 Tatarska Street, II floor, hours: 9:00 am - 4:00 pm

Warsaw - 17 Bielska Street, hours: 9:00 am - 4:00 pm

TRAINING GOALS:

In this two-day intensive course participants develop the competence to master the basic **risk management** elements related to all assets of relevance for information security using the **ISO/IEC 27005:2008** standard as a reference framework. Based on practical exercises and case studies, participants acquire the necessary knowledge and skills to perform an optimal information security risk assessment and manage risks in time by being familiar with their life cycle. This training fits perfectly in the framework of an **ISO/IEC 27001:2005** standard implementation process.

Who should attend?

- Risk managers
- Persons responsible for information security or conformity within an organization
- Member of the information security team
- IT consultants

Learning objectives

- To understand the concepts, approaches, methods and techniques allowing an effective risk management according to **ISO 27005**
- To interpret the requirements of **ISO 27001** on information security risk management
- To understand the relationship between the information security risk management, the security controls and the compliance with all other requirements

CONSPECT:

- Day 1: Introduction, risk management program, risk identification and assessment according to ISO 27005

- Concepts and definitions related to risk management
- Risk management standards, frameworks and methodologies
- Implementation of an information security risk management program
- Risk identification and assessment
- Day 2: Risk evaluation, treatment, acceptance, communication and surveillance according to ISO 27005
 - Risk evaluation and treatment
 - Acceptance of information security risks and management of residual risks
 - Information security risk communication, monitoring and review
 - Certified ISO/IEC 27005 Risk Manager Exam

Difficulty level

CERTIFICATE:

The “**Certified ISO/IEC 27005 Risk Manager**” exam fully meets the requirements of the PECB Examination and Certification Program (ECP). The exam covers the following competence domains:

- Domain 1: Fundamental concepts, approaches, methods and techniques of risk management
- Domain 2: Implementation of a risk management program
- Domain 3: Information security risk assessment based on ISO 27005

The “**Certified ISO/IEC 27005 Risk Manager**” exam is available in different languages (the complete list of languages can be found in the examination application form).

Duration: 2 hours.

For more information about the exam, refer to PECB section on ISO 27005 Risk.

A certificate of “**ISO/IEC 27005 Risk Manager**” will be issued to participants who successfully pass the exam and comply with all the other requirements related to this credential.

For more information about ISO 27005 certifications and PECB certification process, refer to PECB section on **ISO 27005 Risk Manager Certification**.

TRAINER:

Authorized PECB Trainer.

ADDITIONAL INFORMATION:

- This training is based on both theory and practice:
 - Sessions of lectures illustrated with examples based on real cases
 - Practical exercises based on case studies including role playing and oral presentations
 - Review exercises to assist the exam preparation
 - Practice test similar to the certification exam
- To benefit from the practical exercises, the number of training participants is limited
- Certification fees are included in the exam price
- A student manual containing over 150 pages of information and practical examples will be distributed to participants
- A participation certificate of 14 CPD (Continuing Professional Development) credits will be issued to participants
- In case of failure of the exam, participants are allowed to retake the exam for free under certain conditions.
