

Training: PECB  
ISO 31000 Risk Manager

FORM OF TRAINING	MATERIALS	PRICE	DURATION
Traditional	Hardcopy	700 EUR	2 days
Traditional	CTAB Tablet	850 EUR	2 days

## LOCATIONS

Krakow - 5 Tatarska Street, II floor, hours: 9:00 am - 4:00 pm

Warsaw - 17 Bielska Street, hours: 9:00 am - 4:00 pm

## TRAINING GOALS:

In this two-day intensive course participants develop the competence to master a model for implementing risk management processes throughout their organization using the **ISO 31000:2009** standard as a reference framework. Based on practical exercises and case studies, participants acquire the necessary knowledge and skills to perform an optimal risk assessment and manage risks in time by being familiar with their life cycle. During this training, we will present the **ISO 31000** general risk management standard, the process model it recommends, and how companies may use the standard, and its companion risk assessment tools document **ISO 31010**

Who should attend?

- Risk managers
- Business Process Owners
- Business Finance Managers
- Business Risk Managers
- Regulatory Compliance Managers
- Project Management
- Persons responsible for information security or conformity within an organization

Learning objectives

- To understand the concepts, approaches, methods and techniques allowing an effective risk management according to ISO 31000
- To understand the relationship between the risk management and the compliance with the requirements of different stakeholders of an organization
- To acquire the competence to implement, maintain and manage an ongoing risk management program according to ISO 31000

- To acquire the competence to effectively advise organizations on the best practices in risk management

## CONSPECT:

- Day 1: Introduction, risk management program, risk identification and assessment according to ISO 31000
  - Concepts and definitions related to risk management
  - Risk management standards, frameworks and methodologies
  - Implementation of a risk management program
  - Understanding an organization and its context
  - Risk identification and risk analysis
- Day 2: Risk evaluation, treatment, acceptance, communication and surveillance according to ISO 31000 and ISO 31010
  - Risk evaluation and risk treatment
  - Acceptance of information security risks and management of residual risks
  - Risk communication
  - Risk monitoring and review
  - Risk assessment tools recommended in ISO 31010
  - Certified ISO 31000 Risk Manager Exam (2 hours)

## Difficulty level

## CERTIFICATE:

The “**Certified ISO 31000 Risk Manager**” **exam** fully meets the requirements of the PECB Examination and Certification Program (ECP). The exam covers the following competence domains:

- Domain 1: Fundamental concepts, approaches, methods and techniques of risk management
- Domain 2: Implementation of a risk management program
- Domain 3: Risk assessment based on ISO 31000

The “**Certified ISO 31000 Risk Manager**” **exam** is available in different languages (the complete list of languages can be found in the examination application form).

Duration: 2 hours.

For more information about the exam, refer to PECB section on ISO 27005/31000 Risk Manager Exams.

After successfully completing the “ISO 31000 Risk Manager” exam, participants can apply for the credentials of Certified ISO 31000 Provisional Risk Manager, Certified ISO 31000 Risk Manager or Certified ISO 31000 Lead Risk Manager, depending on their level of experience.

A certificate will be issued to participants who successfully pass the exam and comply with all the other requirements related to the selected credential.

For more information about ISO 27005, ISO 31000 certifications and PECB certification process, refer to PECB section on ISO 27005/31000 Risk Manager Certifications.

## TRAINER:

Authorized PECB Trainer.

## ADDITIONAL INFORMATION:

- This training is based on both theory and practice:
  - Sessions of lectures illustrated with examples based on real cases
  - Practical exercises based on case studies including role playing and oral presentations
  - Review exercises to assist the exam preparation
  - Practice test similar to the certification exam
- To benefit from the practical exercises, the number of training participants is limited
- Exam and certification fees are included in the training price
- A student manual containing over 200 pages of information and practical examples will be distributed to participants
- A participation certificate of 14 CPD (Continuing Professional Development) credits will be issued to participants
- In case of failure of the exam, participants are allowed to retake the exam for free under certain conditions.
- ISO 27005 is a guidance on information security risk management and it is not a certifiable standard for an organization
