Training: AWS
AWS Certified Cloud Practitioner (CLF-C02) Exam

TRAINING GOALS:

The AWS Certified Cloud Practitioner (CLF-C02) exam is intended for individuals who can effectively demonstrate overall knowledge of the AWS Cloud, independent of a specific job role.

The exam validates a candidate's ability to complete the following tasks:

- Explain the value of the AWS Cloud.
- Understand and explain the AWS shared responsibility model.
- Understand security best practices.
- Understand AWS Cloud costs, economics, and billing practices.
- Describe and position the core AWS services, including compute, network, database, and storage services.
- Identify AWS services for common use cases.

This certification is intended for candidates who may be:

- From a non-IT background and exploring a career in the AWS Cloud
- In sales/marketing/business analyst roles looking to communicate more effectively with stakeholders and customers about the AWS Cloud
- In on-premises IT or cloud roles, but new to AWS Cloud, and need a primer before diving into role-based AWS Certification(s)

The target candidate has up to 6 months of exposure to AWS Cloud design, implementation, and/or operations. This certification is ideal for candidates who are from non-IT backgrounds. These candidates might be in the early stages of pursuing an AWS Cloud career or might work with people in AWS Cloud roles.

Recommended AWS knowledge

The target candidate should have AWS knowledge in the following areas:

- AWS Cloud concepts
- Security and compliance in the AWS Cloud
- Core AWS services
- Economics of the AWS Cloud
