

Training: Extreme Networks ExtremeCloud™ IQ - Site Engine - Management

TRAINING TERMS

2025-02-13 | 2 days | Virtual Classroom

2025-05-15 | 2 days | Virtual Classroom

TRAINING GOALS:

Students will gain more detailed explanation of centralized network management capabilities within ExtremeCloud™ IQ – Site Engine. This includes not only build in tools but also customizations available within ExtremeCloud™ IQ – Site Engine. Network visibility of devices, device configuration tools, device firmware and configuration management, and device reporting are discussed. Students have these concepts reinforced with a hands-on lab experience working with a pre-configured network.

Course Objectives

Upon completion of this course, students will have gained the working knowledge to:

- Attain overall network visibility in ExtremeCloud™ IQ – Site Engine
- Access tools for device configuration and configuration archives
- Manage device firmware via ExtremeCloud™ IQ – Site Engine
- Access, generate, and customize reports in ExtremeCloud™ IQ – Site Engine
- Pass the ExtremeCloud™ IQ – Site Engine – Management exam

Who Should Attend

This course is designed for individuals responsible for the overall network management using ExtremeCloud™ IQ – Site Engine.

CONSPECT:

- Device visibility and management tools in ExtremeCloud™ IQ – Site Engine
- Device configuration management in ExtremeCloud™ IQ – Site Engine
- Device firmware management in ExtremeCloud™ IQ – Site Engine
- Device archive management in ExtremeCloud™ IQ – Site Engine
- Reporting and reports in ExtremeCloud™ IQ – Site Engine

REQUIREMENTS:

You must be certified in ExtremeCloud™ IQ - Site Engine - Installation and Configuration.

Difficulty level

CERTIFICATE:

The participants will obtain certificates signed by Extreme Networks.

TRAINER:

Authorized Extreme Networks Trainer.
