

## Training: Extreme Networks ExtremeCloud™ IQ - Site Engine - Advanced Configuration

### TRAINING TERMS

2025-04-09 | 3 days | Virtual Classroom

### TRAINING GOALS:

Students will gain more advanced knowledge of ExtremeCloud™ IQ - Site Engine tools such as templates, workflows, automations, and integration with ExtremeCloud™ IQ. Overviews of Extreme Analytics, Extreme Policy Manager, and Extreme Control are included. Students have these concepts reinforced with a hands-on lab experience working with a pre-configured network.

#### Course Objectives

Upon completion of this course, students will have gained the working knowledge to:

- Utilize templates within ExtremeCloud™ IQ - Site Engine
- Utilize workflows within ExtremeCloud™ IQ - Site Engine
- Design workflows and automations
- Integrate with ExtremeCloud™ IQ - Site Engine
- General knowledge of Extreme Analytics, Extreme Policy, and Extreme Control

#### Who Should Attend

This course is designed for individuals responsible for the overall network management using ExtremeCloud™ IQ - Site Engine, Extreme Analytics, Extreme Policy, and Extreme Control.

### CONSPECT:

- Device and port templates
