

## Training: Extreme Networks ExtremeCloud™ IQ - Controller - Advanced Configuration

### TRAINING TERMS

2025-06-06 | 1 day | Virtual Classroom

### TRAINING GOALS:

The course covers how to manage advanced applications in ExtremeCloud™ IQ - Controller, such as Extreme Scheduler and AirDefense Base. Students will learn how to leverage APIs and Postman to create integrated solutions, and how to create custom dashboards and reports to become more proactive.

#### Course Objectives

Upon completion of this course, students will have gained the working knowledge to:

- Install and manage applications into ExtremeCloud™ IQ - Controller
- Create custom reports and dashboards in ExtremeCloud™ IQ - Controller
- Be able to call API to perform functions or retrieve data from ExtremeCloud™ IQ - Controller

#### Who Should Attend

This course is designed as the first step for individuals responsible for the installation, configuration and management of the ExtremeCloud™ IQ - Controller

### CONSPECT:

- Applications
- Custom dashboards and reports
- Application Programming Interface
- Advanced topologies

### REQUIREMENTS:

You should already possess a learning credential for [ExtremeCloud™ IQ - Controller - Installation and Configuration](#).

## Difficulty level

## CERTIFICATE:

The participants will obtain certificates signed by Extreme Networks.

## TRAINER:

Authorized Extreme Networks Trainer.
