Distance learning	CTAB Tablet	1300 EUR	5 days

LOCATIONS

Krakow - 5 Tatarska Street, II floor, hours: 9:00 am - 4:00 pm
Warsaw - 17 Bielska Street, hours: 9:00 am - 4:00 pm

TRAINING TERMS

2019-10-21 | 5 days | Warszawa

TRAINING GOALS:

The **CompTIA Advanced Security Practitioner (CASP+) Certification** is a vendor-neutral credential. The **CASP+ exam** is an internationally targeted validation of advanced-level security skills and knowledge. While there is no required prerequisite, the **CASP+ certification** is intended to follow **CompTIA Security+** or equivalent experience and has a technical, “hands-on” focus at the enterprise level.

The CASP+ exam will certify that the successful candidate has the technical knowledge and skills required to conceptualize, design, and engineer secure solutions across complex enterprise environments. The candidate will apply critical thinking and judgment across a broad spectrum of security disciplines to propose and implement solutions that map to enterprise drivers.

*Each participant in an authorized training **CompTIA CASP+ Prep Course** held in Compendium EC will receive a free CAS-003 CompTIA Advanced Security Practitioner (CASP+) Exam voucher.*

CONSPECT:

- Enterprise Security
 - Distinguish which cryptographic tools and techniques are appropriate for a given situation. Distinguish and select among different types of virtualized, distributed and shared computing.
 - Explain the security implications of enterprise storage.

- Integrate hosts, networks, infrastructures, applications and storage into secure comprehensive solutions.
- Distinguish among security controls for hosts.
- Explain the importance of application security.
- Given a scenario, distinguish and select the method or tool that is appropriate to conduct an assessment.
- Risk Management, Policy / Procedure and Legal
 - Analyze the security risk implications associated with business decisions
 - Execute and implement risk mitigation strategies and controls
 - Explain the importance of preparing for and supporting the incident response and recovery process.
 - Implement security and privacy policies and procedures based on organizational requirements.
- Research and Analysis
 - Analyze industry trends and outline potential impact to the enterprise
 - Carry out relevant analysis for the purpose of securing the enterprise
- Integration of Computing, Communications and Business Disciplines
 - Integrate enterprise disciplines to achieve secure solutions
 - Explain the security impact of inter-organizational change
 - Select and distinguish the appropriate security controls with regard to communications and collaboration
 - Explain advanced authentication tools, techniques and concepts
 - Carry out security activities across the technology life cycle

REQUIREMENTS:

- Suggested a minimum of 10 years experience in IT administration including at least 5 years of hands-on technical security experience.

Difficulty level

CERTIFICATE:

The participants will obtain certificates signed by CompTIA (course completion). This course will help prepare you for the **CompTIA Advanced Security Practitioner (CASP+) certification exam**, which is available through the [Pearson VUE test centers](#).

*Each participant in an authorized training **CompTIA CASP+ Prep Course** held in Compendium EC*

will receive a free CAS-003 CompTIA Advanced Security Practitioner (CASP+) Exam voucher.

TRAINER:

Authorized CompTIA Trainer.
