CONSPECT:

- Troubleshooting Concepts
- System Resources
- Sessions, Traffic Flow, and Networking
- Security Fabric
- Firewall Authentication
- ∘ FSSO
- Security Profiles
- High Availability
- IPsec
- ∘ IPsec-IKEv2
- o BGP
- o OSPF

REQUIREMENTS:

- Knowledge of network protocols
- Basic understanding of firewall concepts

Difficulty level

CERTIFICATE:

The participants will obtain certificates signed by Fortinet.

This course is intended also to help you prepare for the FCSS – Network Security Support Engineer exam. This exam is part of the following certification tracks:

Fortinet Certified Solution Specialist - Network Security

Network Security Support Engineer certification exam is a one of the possible steps required to gain the Fortinet Certified Solution Specialist (FCSS) title. Fortinet certification exams are offered at Pearson Vue test centers worldwide. More information about Fortinet Certification Program on the https://www.fortinet.com/training-certification
