Krakow - 5 Tatarska Street, II floor, hours: 9:00 am - 4:00 pm
Warsaw - 17 Bielska Street, hours: 9:00 am - 4:00 pm

TRAINING TERMS

2019-11-18 | 2 days | Warszawa *(Special offers)*

TRAINING GOALS:

Develop a working knowledge of configuring and managing Infoblox network appliances running Network Automation. Understand automated collection of network device configuration information over SNMP and SSH. Learn how to use the collected information for configuration and change management, network policy management (building from an extensive built-in list of established rules and policies) and automated compliance checks and reports, as well as the general configuration and reporting features available in the Network Automation product.

This is a basic-level course for team members who implement and configure or maintain and operate the Network Automation product.

CONSPECT:

- Overview & Installation
- Network Discovery
- User Interface
- Settings
- Network Explorer
- Switch Port Manager
- Network Analysis

- Configuration Management
- Rules and Policy
- Jobs and Automation
- Dashboard and Reporting
- Exercises
 - Installation
 - Network Discovery and Groups
 - User Interface
 - Settings
 - Network Explorer
 - Examining Switch Port Manager
 - Network Analysis
 - Configuration Management
 - Rules and Policies
 - Jobs and Automation
 - Dashboard and Reports

REQUIREMENTS:

Persons attending this course should have a working knowledge of IP networking and subnetting, layer 2/3 switching, SNMP and basic router and switch command-line configuration.

Difficulty level

CERTIFICATE:

Exam is passed online via web page. It contains about 60 single and multiple-choice, scenario-based questions. It is an open book exam but it is not easy. A passing score is 80% or higher. Please allot around 4 hours' time to take the exam. Two attempts are included in training price.

The NABC exam is the foundation exam for Network Automation.
