

Training: Fortinet  
NSE6 - FortiMail

FORM OF TRAINING	MATERIALS	PRICE	DURATION
Traditional	Digital materials	1800 EUR	3 days
Traditional	CTAB Tablet	1900 EUR	3 days

## TRAINING TERMS

2019-10-14 | 3 days | Warszawa

## TRAINING GOALS:

In this 2-day instructor-led classroom or online class, you will learn how to deploy, use, & troubleshoot Fortinet's secure messaging gateway: **FortiMail**.

The course begins by analyzing email security challenges that organizations face. Instructors explain FortiMail's role as a specialized device, and how each of its features compare and interplay with FortiGate in providing high-performance yet in-depth email security. Through hands-on experience, students learn how to protect against these threats.

**Course is based on the system version 5.3.**

## CONSPECT:

- Overview
- System Configuration
- Email Setup
- Access Control & Inspection
- Antispam
- Session Monitoring
- Content Inspection & Archiving
- Securing Communications
- LDAP
- Maintenance & Troubleshooting
- Transparent Mode
- High Availability
- Server Mode

## REQUIREMENTS:

- Experience with email servers (**SMTP**)
- Basic understanding of **network security**

## Difficulty level

## CERTIFICATE:

The participants will obtain certificates signed by Fortinet.

This prepares you for the **FortiMail Specialist Exam**. This course qualifies as a specialist course for the NSE 6 designation. More information about NSE 6 certification on the <http://www.fortinet.com/training/certification/NSE6.html>

## TRAINER:

Authorized Fortinet Trainer.
