

Training: F5 Networks  
Configuring BIG-IP APM II Access Policy Manager - Advanced Workshop

Please contact us by phone using the form below in order to perform calculations as training

## TRAINING GOALS:

This course gives network administrators, network operators, and network engineers a functional understanding of commonly used Authentication methods in application delivery networks on **BIG-IP Access Policy Manager**. The course introduces students to BIG-IP Access Policy Manager with Kerberos and SAML authentication, its configuration objects, and how typical administrative and operational activities are performed. The course format is a workshop including lectures followed by hands-on labs and discussions. It should be added to the standard 3-day APM course.

### Audience

This course is intended for network administrators, operators, and engineers responsible for managing the normal day-to-day operation and administration of **BIG-IP Access Policy Manager**.

**Course is based on the system version v13.1.**

## CONSPECT:

- Setting Up the BIG-IP System
  - Initially Setting Up the BIG-IP System
  - Archiving the BIG-IP Configuration
  - LAB
- Web Application Access
  - Web Application Access Configuration
  - LAB
- Authentication and Authorization
  - Active Directory AAA Server Configuration
  - Active Directory Query Configuration
  - Session Variables and sessiondump
  - LAB
- Single Sign-On
  - Portal Access Single Sign-On Configuration
  - LAB

## REQUIREMENTS:

Students are required to complete all of the following F5 prerequisites before attending this course:

- [Administering BIG-IP](#)
- F5 Certified BIG-IP Administrator <https://f5.com/education/certification>
- [Configuring BIG-IP APM Access Policy Manager](#)

The following web-based courses, although optional, will be very helpful for any student with limited BIG-IP administration and configuration experience:

- Getting Started with BIG-IP web-based training  
<https://f5.com/education/training/free-courses/getting-started-with-big-ip>
- Getting Started with BIG-IP Access Policy Manager (APM)  
<https://f5.com/education/training/free-courses/getting-started-with-big-ip-access-policy-manager-apm>

Students should understand:

- TMOS administration
- Authentication methods and SSO
- Students should have working accounts for the following websites.

<http://Askf5.com>

<http://Devcentralf5.com>

## Difficulty level

## CERTIFICATE:

The participants will obtain certificates signed by F5 Networks (course completion).

## TRAINER:

Certified F5 Networks Trainer.
